NOVA
D-Day's Sunken Secrets

Thursday, May 29, 7:00 pm;
Friday, May 30, 8:00 am & 2:00 pm

ON JUNE 6, 1944, the Allies launched an armada to invade the Normandy beaches and liberate Europe from the Nazis. Hundreds of ships sank while running the gauntlet of mines and bunkers, creating one of the world's largest underwater archaeological sites. Now, dive teams, submersibles and underwater robots identify key examples of the Allied craft that fell victim to German shellfire, mines and torpedoes. Also, Allied veterans who have returned to the site of this epic battle share their harrowing stories.
